These authors have argued that the use of the term "transformation" is misleading because it implies a complete change in the nature of the organization, which is not always the case. They suggest that the term "restructuring" is more appropriate, as it implies a change in the organization's structure and processes, but not necessarily its fundamental nature.

## SUMMARY

## How 'lomi lomi' heals negative emotions

By Thomas J. Kane, Deputy Secretary

**T**he little change in the value of the dollar, relative to the yen, has not been enough to make the Japanese market more attractive to U.S. exporters. The dollar's value relative to the yen has fallen by only 1.5 percent since the beginning of 1985. The Japanese market is still the most important market for U.S. exporters, and the dollar's value relative to the yen is still the most important factor in determining the competitiveness of U.S. exports.
